

FireSales Fog Fluid Cirrus

Order number: AU-01195

The Cirrus Fluid is suitable for all battery powered smoke machines in the FireWare assortment and the Smoky Multi Socket.

A battery powered smoke machine is ideal in situations where a small amount of smoke is required. Because the machine works on a battery it can also be used in situations without power supply or when there is no power point available. Consider for instance exercises outdoors, but also exercises in a detention centre or condemned houses.
