

CPR Training Dummy Baby, with display function, weight 3.7 kg

Order number: AU-02570

This life size infant allows training of correct CPR techniques. Ventilation and compression can be practiced like in a real baby. If ventilation is done correctly, the chest will rise. The correct compression depth is indicated by a click sound, the correct compression rhythm is controlled by a build in light indicator. The airways are designed as disposable items, avoiding the need for disinfection. For group education an additional individual face shield with -filter can be attached to protect the students from infection.

dimensions: 56 x 25 x 15 cm

weight: 3.7 kg
