

FireSales BF Gas Cylinder

Order number: AU-03248

The BF Gas Cylinder is a fully stand-alone extinguishing trainer. Connect a real gas cylinder to the BF Gas Cylinder for the gas supply. Then ignite the BF Gas Cylinder manually. Limiting the gas supply from the real gas cylinder will regulate the flames.

The student can extinguish the BF Gas Cylinder by cooling the cylinder with a jet of water and closing the gas tap. The instructor will put out the flames by fully closing the gas tap on the real gas cylinder.

material: stainless steel

dimensions: 50 x 51.5 x 38.5 cm

weight: 19 kg
