

FireSales Fryer, add-on for extinguishing trainer Vesta

Order number: AU-03266

The fryer is an accessory for the FireSales Vesta. It can very easily be positioned on top of the extinguishing trainer. So you can train the right procedure in case of a grease fire in the kitchen. Therefore a tray for fat is included in delivery to create a real grease fire. The correct extinguishing procedure can be trained with the belonging lid.

With the help of a mechanism the instructor can add a certain amount of water to the grease fire to demonstrate the resulting fire ball.

supplied with:

lid

bracket for simulating a frying basket

tray for fat

tray for water

drop chain

plastic storage box

material: stainless steel
