

## Wound Moulage Cut with Glass Fragment, self-adhesive, incl. storage box

**Order number:** AU-08315

This Moulage shows a cut caused by a glass fragment while the fragment is still inside the wound. The glass fragment looks realistic, but is made of soft material to avoid any risk of injury. The moulage adheres to skin or a manikin without glue, however, for longer training or improved adhesion a skin adhesive (optional) can be used.

supplied with:  
storage box

dimensions: approx. 11 x 7 x 1 cm
