

Analogue XLR Remote with 10 m long cable, for fog machines Cumulus and Stratus

Order number: AU-09302

The Analogue XLR Remote allows you to operate your smoke machine from a distance. As a result you can exactly dose the quantity of smoke and immediately react to the exercise situation. This way the actions of the student result in more or less smoke. The exercise leader can easily coordinate this.

The remote control has an on/off switch and a knob. The knob adjusts the smoke output; this varies in principle between 0 and 100 %. But if the smoke machine itself is set at an output of for example 37 % maximum, the knob varies between 0 and 37 %.

The Analogue XLR Remote is supplied including a 10-meter long cable. The cable can possibly be extended with a standard XLR-cable.
