

## Wireless XLR Remote for Fog Machines, Cumulus, Stratus and Cirrus

**Order number:** AU-09304

Operate with the Wireless XLR Remote the smoke machines from a distance. As a result it is possible to dose the quantity of smoke exactly and immediately react to the exercise situation. This way the actions of the student result in more or less smoke. The exercise leader can easily coordinate this.

Under ideal circumstances the range is 100 meter, even through a concrete wall. But iron obstacles and interfering radio frequencies can disrupt the range.

The transmitter has 4 programmable dials, so it is possible to operate 4 smoke machines with one transmitter.

dimensions remote controler: 7 x 4 x 1.7 cm

dimensions transmitter: 7.5 x 3.5 x 2 cm
