

Origin Outdoors Paracord Firesteel, 10.000 Strikes

Order number: CA-01005

The ignition steel has a handle that fits comfortably in the hand with a noble stone look and offers a secure grip when lighting a fire, even when wet or wearing gloves. Sparks with up to 3,000°C ignite campfires, barbecues and cookers.

A small emergency whistle is attached to the paracord to draw attention to yourself in a precarious situation.

- safe grip thanks to ergonomic handle
- with emergency whistle
- completely insensitive to moisture
- with approx. 2 m paracord
