

Origin Outdoors Solarshower 20 L, roll up

Order number: CA-01013

Heats the water with solar energy to over 30 °C in about three hours. A rope with a hook allows it to be attached to trees or other mounting options. A valve on the shower head controls the dosage of the water jet. The shower is rollable and therefore space-saving to transport. Ideal for a quick shower when camping, picnicking, at the seaside or in the garden.

- Hot water by solar energy
- valve shower head for dosing the water jet
- small pack size
- fastening possibility
- incl. rope and suspension hook
- not suitable for drinking water!

material: PVC with polyvinyl coated on one side

dimensions: 57 x 40 cm

volume 20 L
