

Campingaz 2-Burnerstove 400-S

Order number: CA-01016

Two-burner stove with new, innovative Xcelerate technology. Here, a significantly optimized heat is generated. This is achieved by the staircase design of the burner and the built-in WindBlock. Thus, incoming air is immediately directed to the outside. On the stove, the burners are of course separate and finely adjustable.

Included in delivery:

- piezo ignition
- a stable lid
- windshields that can be put up
- 80 cm tube

For operation with propane, butane and isobutane from gas bottles with regulator (not included)

power 2.200 W

weight 6.000 g

Consumption 2 x 165 g/h

Comparative cooking time 10 min

Dimensions: 55.5 x 42.5 x 13.5 cm
