

LAVESE Mobile Washbasin

Order number: CA-03800

The mobile and compact washbasin LAVESE is used wherever outside of buildings there is a need for intensive hand cleaning. In addition to its attractive design, the station impresses with its independence from electricity and a permanent water connection as well as environmental friendliness, because the dirty water does not flow on the ground / in nature, but is collected in the dirty water tank. Incidentally, LAVESE can also be used to clean smaller objects or brush your teeth - just like at the sink at home.

- easy handling
- compact set-up dimensions - approx. 39 x 55 x 40 cm (W / H / D)
- robust, stable and leak-proof
- portable with padded shoulder strap
- hand washing up to 25 times with one tank (8 l)
