

## HAIX Missoula 2.0 Firefighter boots, for forest and vegetation fires

**Order number:** EB-01234

No chance for vegetation fires. Your MISSOULA 2.0 offers you the protection you need.

### Upper Material

Suede leather 2.8 – 3.0 mm thick, hydrophobic, breathable (5.0 mg/cm<sup>2</sup>/h)

### Inner Lining

GORE-TEX Performance; waterproof and breathable. Highly abrasion-resistant lining with fleece midlayer. Optimized climate comfort for all year seasons and excessive use. Increased chemical protection.

### Non-woven insole

Non-woven insole absorbs moisture

### Insert

Moisture wicking comfort insert with cushioning effect properties. Separate heel cup ensures optimized cushioning and foot guidance. "AIRFLOW" channels. "Perfect- Fit" marking for optimized boot size choice.

### HAIX Protective sole

Flexible, lightweight metal sole insert preventing punctures (patent pending).

### Sole

Lightweight rubber/PU sole in a sports style with sturdy road/rough terrain profile and enhanced toe-to-heel support; wear-resistant with excellent anti-slip properties - even in cold weather. The lightweight PU shock absorption wedge provides extra walking comfort and excellent thermal insulation. The flame-resistant outer sole is non-marking according to EN 15090:2012 and offers excellent resistance against heat, oil and fuels. Its bright yellow signal marks are visible even through thick smoke.

### HAIX Arch Support System

Optimal ankle support and shock absorption in the arch provided by an anatomically formed last; good foot guidance

and proper hold thanks to narrow heel and ankle shaft combined with added comfort through broad front foot area.

**HAIX 2-Zone Lacing**

Two Zone Lacing System enables a separate adjustment of the boot to the foot and leg area.

**HAIX Vario Wide Fit System**

The width of the shoe can be individually adjusted by three different insoles. The shoe is supplied with a red insole (medium). A yellow insole (wide) and blue insole (narrow) can be ordered separately.

**HAIX Climate System**

The HAIX Climate system uses the pumping movement, which permits air circulation with every step – moist air is released and fresh air comes in through the Micro-Dry lining / vent holes at the top of the boot.

**Others**

Anti-friction closed lacing elements, pull-on strap on the back, boot jack
