

HAIX Fire Eagle 2.0, Firefighter boots

Order number: EB-01237

The fastest firefighting boot in the world. Your FIRE EAGLE 2.0 sets new standards.

Uppers

Waterproof leather, hydrophobised, breathable, 2.0 – 2.2 mm thick

Inner lining

CROSSTECH Laminate Technology, waterproof and breathable. Abrasion-proof lining fabric for optimum climate comfort at all times of the year, especially when frequently moving between indoors and outdoors. Excellent penetration protection against blood and other bodily fluids (thus preventing ingress of viruses and bacteria).

Inlay

Comfortable with cushioning and moisturewicking effect. Separate heel cup ensures optimised cushioning and foot guidance. "AIRFLOW" channels. "Perfect Fit" marking for optimised boot size choice.

HAIX composite protective cap

Anatomically shaped, ultra-light protective cap made of fibre-reinforced plastic to meet the very highest safety requirements.

Insole

Moisture-absorbent fleece insole. HAIX High Durability Cap System TPU cap with special profile to ensure longer service life.

HAIX protective sole

Flexible, lightweight metal sole insert to prevent punctures.

Sole

Lightweight rubber/PU sole in a sports style with a sturdy road/rough terrain profile, and enhanced toe-to-heel support; wear-resistant with excellent anti-slip properties – even in cold weather. A lightweight PU shock absorption wedge provides outstanding walking comfort and excellent thermal insulation.

The flame-resistant outer sole is non-marking according to EN 15090:2012 and offers excellent resistance against heat and fuels. Its bright yellow signal marks are visible even through thick smoke.

HAIX Arch Support System

Optimum ankle support and shock absorption in the arch area is provided by an anatomically formed last. Good foot guidance and a secure hold thanks to a narrow heel and ankle shaft combined with added comfort offered by a broad front foot area.

HAIX Identification System

Name field for boot labelling.

HAIX Vario Wide Fit System

Three different boot inserts enable you to adjust the boot to the width of your feet.

HAIX Climate System

Micro-dry lining around the upper end of the shaft uses the natural pumping motion generated as you walk along to transport moisture to ventilation slits at the shaft and tongue.

HAIX RAPIDFIT System

Two-zone lacing system for quick and optimum lacing adjustment and correct fit of the boot. An integrated protector offers additional safety.

Sun Reflect

Reduces the heating effect produced on the upper leather by the sun's rays. Sunlight is reflected by the leather, thus ensuring that less warmth is directed to the foot.

Further features

Lateral reflective strips, 2-zone lacing system with protector, extra flexible shaft, pull-on straps, boot jack, ESD
