With the **HAIX Airpower XR1 safety boot**, you get a first-class rescue service shoe that meets the highest requirements. The high-quality workmanship and the protection class S3 make it the ideal safety boot **for your demanding use by the rescue service and fire brigade.**

Discover the outstanding features of the HAIX Airpower XR1:

**High-quality workmanship:** Each shoe is manufactured with great care and precision to offer you the highest quality and longevity.

**Protection class S3:** The rescue service boots meet the strict safety requirements of protection class S3, which means that they offer you optimal protection against penetration and moisture.

**Hard-wearing outer material:** The HAIX Airpower XR1 is made of robust and abrasion-resistant material to withstand the tough conditions in the rescue service.

**Breathable inner lining:** Thanks to the special inner lining, moisture is effectively wicked away so that your feet stay pleasantly dry, even during long periods of use.

**Stable sole with optimal cushioning:** The non-slip and oil-resistant sole offers you a secure grip on different surfaces, while the integrated cushioning ensures excellent wearing comfort.

**Ergonomic design:** The HAIX Airpower XR1 adapts perfectly to your foot shape and thus supports a healthy posture, even when standing or walking for a long time.

Trust the HAIX Airpower XR1, the dependable rescue service boot that offers you the protection and comfort you need in the field. Choose quality, choose safety - for your demanding everyday life as a paramedic.
