

WATEX IRS QLOCK01, integrated rescue loop system

Order number: EB-03209

The integrated rescue loop system IRS QLOCK01 is a holding and rescue loop that is fully integrated in the fire brigade protective jacket and is made of webbing optimized for firefighting.

The system is put on together with the overcoat, closed with the quick-release fastener QLOCK01 and is immediately ready for use.

The IRS QLOCK01 system meets both the requirements for safety belts (EN 358) and rescue loops (EN 1498) and replaces the long-serving fire brigade safety belt in all functions according to fire service regulation 1 (FwDV 1).

In addition to the standards for the harness, the standards for the self-belay sling EN 566:2017 and EN 795-B:2012 also apply to the entire system.

The carabiner of the integrated rescue loop system is made of light aluminum with a breaking strength of well over 22 kN.

belt width: 80 mm

length of self-belay sling: 78 cm

temperature range: -40 / +80 °C

user weight: 180 kg

weight: 625-645g

EN 358:2018, EN 1498-A:2007, EN 566:2017, EN 795-B:2012
