

comazo Fire Shirt Basic, for fighting forest fires

Order number: EB-04600

The shirt in the international color of forest fire protection "yellow" with navy blue insert is flame retardant due to the material composition of aramide and Lenzing FR as well as antistatic due to the use of Belltron. Aramide also ensures high strength and makes the material robust. The navy blue insert made of durable woven fabric offers ideal fit.

High wearing comfort due to the integrated sweat management, so that the body remains pleasantly dry despite sweat and extreme exertion. The Velcro closure in the center front allows for different collar options. Elastic cuffs allow the sleeves to be pushed up. Equipped with an extended back area.

- flame retardant due to the use of aramide and Lenzing FR
- different collar variations by Velcro in front
- antistatic due to Belltron

Base material: 48,5% Aramide | 48,5% Viscose/Lenzing FR | 3% Carbon fiber/Belltron

Woven fabric: 59% Viscose/Lenzing FR | 29% Aramide | 10% Polyamide | 2% Static-Control
