

Chemical protective suit ChemMax 1, low protection

Order number: EB-90000

The ChemMax 1 Coverall provides low protection against most industrial acids and bases, as well as blood-borne pathogens and viruses. At the same time, it meets the requirements of EN 1149 for electrostatic properties.

- glued, sealed seams
- extremely light, soft and stretchy fabric
- double zipper and storm flap
- elastic hood, cuffs, waist and ankles
- padded knee pads for greater protection and comfort

Sizes: S-3XL

EN 14605 Type 3 and 4, EN 14126, EN 1149

Very light, soft and flexible fabric with stitched and welded seam construction. Low noise level for greater comfort and safety. EN Type 3 liquid jet and Type 4 liquid jet chemical protection. Barrier against infectious substances - passes all four EN 14126 biohazard tests of the highest classes.

Lakeland's unique Super B style features a three-panel hood, set-in sleeves and crotch gussets for enhanced fit, superior freedom of movement, comfort and durability. Double zipper and storm flap on the front and built-in padded knee pads for added comfort and protection. Certified to EN1149-5 for static dissipative clothing.
