

Universal Tool ResQMe

Order number: EH-05025

This little emergency helper for carrying on a key ring is the ideal tool for car accidents and emergencies to cut safety belts and smash side and rear car windows.

The seat belt cutter cuts through the belt without problems in the event of an emergency, and is also useful for cutting through clothes. The integrated window smasher can be used to open any side or rear window in a vehicle with little effort. The ResQMe fits on any key ring or can ideally be left in various locations in the vehicle.

- belt knife
- spring centre punch
- key ring and blade guard

length: 7.5 cm

weight: 20 g
