

## Spencer Resuscitation Board Res-Q-Board, colour yellow

**Order number:** EH-05080

Ideal surface for reanimation. No need for time-consuming relocating from care bed or hospital bed. Makes it possible to perform effective reanimation on soft surfaces such as mattresses. A valuable tool during any other kind of reanimation. The smooth plastic surface and two side handles make quick positioning around the patient possible. The shaped basin ensures that the head is tilted properly.

- washable and sterilizable
