

Söhngen Rescue Sheet, dimensions 210 x 160 cm, silver/gold

Order number: EH-05140

Manufactured from polyester foil and aluminized in an intense vacuumisation process, the sheet is silver on one side, backed by gold on the reverse side. The sheet reflects up to 85 % of body warmth, prevents hypothermia and rapid decreases in body temperature. It has the added advantage in that it can also be used to protect from heat. It has an excellent signaling effect and the gold side can be clearly seen in darkness.

Contained within the German DIN 13157 and DIN 13169 fillings. Also for automobile kits, in accordance with DIN 13164.

dimensions folded:: 10 x 9 cm

dimensions unfolded: 210 x 160 cm
