

comazo Flame Retardant Tube Scarf, Aramid/Lenzing FR/Belltron, ISO 11612

Order number: FB-04253

The scarf offers optimal protection for neck and head thanks to the different wearing options. The extra flat seams do not create any pressure points and are therefore ideal to wear. This scarf is certified according to DIN EN ISO 11612, EN 1149-5, flame retardant by Lenzing FR and antistatic by Belltron.

- diverse application possibilities
- comfortable thanks to flat seams
- antistatic thanks to Belltron
- flame retardant thanks to Lenzing FR

material:

48.5% aramid

48.5% viscose / Lenzing FR

3% carbon fiber / Belltron

DIN EN ISO 11612, EN 1149-5
