

rescue-tec Tablet Organizer, Plane, with individual text

Order number: FB-80645I

Tablets have become an everyday companion not only for private and business use, but also for command and control. The Tablet Organizer offers a particularly flexible and secure fastening solution for the tablet via Velcro strip. The Velcro strip is sewn into the pocket, the self-adhesive fleece strip is simply attached to the back of the tablet.

With the hand slot on the back, it can be held securely with just one hand in portrait or landscape mode without having to balance. If you don't want to use this, simply use it as a quick pull pocket. The built-in padding protects against external shocks. A slip-in compartment for a notepad is provided for handwritten notes or sketches. A pen holder is of course also on board.

For individual labeling, there is an identification compartment for name tag/business card on the front.

- model-independent attachment of the tablet via Velcro strip
- for tablets up to 11 inch screen diagonal
- hand insertion allows safe and comfortable hold, for left and right handers
- insertion compartment for a notepad DIN A5
- Pen holder inside
- Key clip
- Pocket for name tag/business card on the front side

The organizer is delivered with your individual labeling request. The cover flap offers space (12 x 8 cm) for a text, for example the vehicle name or the name of the local fire brigade or both.

Material: Polyester, PVC-coated
Dimensions: 29.5 x 21 x 4.5 cm
Weight: 0.4 kg

Please make sure that there is enough color contrast between the basic color of the organizer and the imprint!
