

rescue-tec Holster Limburg an der Lahn, material rtx® 950, with individual text

Order number: HO-01000I

High belt-holster for scissors Cologne, 2 m tubular loop, wax crayon and/or marking pencil, new temporary key and two wooden wedges. One partition has a pull strap to lift smaller equipment for easier taking out.

It can be fixed to a normal leather waist belt, on a hip belt, on a fireman's safety belt and on the Molle-system. An emergency release appliance, which releases at a force of 250-300 N, minimises the risk of getting stuck.

With a fleece strip for tube for door marking ribbons and a pull strap to lift smaller equipment for easier taking out. (without contents)

- flame resistant material, tested in a 6-burner test at 950 (\pm 50 °C) like respiratory protection full-face masks class 3
- emergency release appliance
- the mobility of the wearer is not inadmissible restricted
- the physical burden on the wearer is not increased disproportionately
- the protective function of other PPE is not endangered

This holster comes with its own labeling request. The front offers space (7 x 6 cm) for the vehicle name or the name of the district or both.
