

rescue-tec Holster Mechnich, material rtx® 950, belt fixation

Order number: HO-01040

Large belt holster for a rescue knife or a scissors Cologne, two wax crayons and/or marking pencils, light sticks, mini coupling spanner or hand wheel for wall hydrant, biting gauge, vinyl gloves, 2 m tubular webbing and two 3D timber wedges. With a fleece strip for tube for door marking ribbons. (without contents)

It can be fixed to a normal leather waist belt, on a hip belt, on a fireman's safety belt and on the Molle-system. An emergency release appliance, which releases at a force of 250-300 N, minimises the risk of getting stuck.

- flame resistant material, tested in a 6-burner test at 950 (\pm 50 °C) like respiratory protection full-face masks class 3
- emergency release appliance
- the mobility of the wearer is not inadmissible restricted
- the physical burden on the wearer is not increased disproportionately
- the protective function of other PPE is not endangered
