

rescue-tec Holster for 2 Fire Escape Hoods XL, material rtx® 950, shoulder strap fixation

Order number: HO-01066

A holster for two fire escape hoods incl. packaging and several equipment. In the separate partition helpful equipment can be carried, e. g. a rescue knife, scissor Cologne, tubular webbing with carabiner, wood wedges, marking pens. Even in fire smoke the equipment is easy to reach.

The holster can be carried with a shoulder strap (not included). An emergency release appliance, which releases at a force of 250-300 N, minimises the risk of getting stuck. (without contents)

- flame resistant material, tested in a 6-burner test at 950 (\pm 50 °C) like respiratory protection full-face masks class 3
- emergency release appliance
- the mobility of the wearer is not inadmissibly restricted
- the physical burden on the wearer is not increased disproportionately
- the protective function of other PPE is not endangered

material: rtx® 950

dimensions: 30 x 22 x 13 cm

weight: 0.3 kg

meets the following requirements of DIN 14922:2020-02 (Multi purpose bag for fire service use):

- 6.1.1 limited flame spread
- 6.1.3 tensile strength
- 6.1.4 tear strength
- 6.2 closure system
- 6.3.2 emergency release device
- 10 Instructions for use
