

rescue-tec Holster Multipocket Compact, material rtx® 950, belt fixation

Order number: HO-01085

This compact holster has been developed by customer requirements. Through its narrow shape it is designed to hold a rescue knife or a small multifunction tool. (without contents)

It can be fixed to a normal leather waist belt, on a hip belt, on a fireman's safety belt and on the Molle-system. An emergency release appliance, which releases at a force of 250-300 N, minimises the risk of getting stuck.

- flame resistant material, tested in a 6-burner test at 950 (\pm 50 °C) like respiratory protection full-face masks class 3
- emergency release appliance
- the mobility of the wearer is not inadmissible restricted
- the physical burden on the wearer is not increased disproportionately
- the protective function of other PPE is not endangered

material: rtx® 950

dimensions: 12 x 6.5 x 2.5 cm

weight: 0.04 kg

meets the following requirements of DIN 14922:2020-02 (Multi purpose bag for fire service use):

- 6.1.1 limited flame spread
- 6.1.3 tensile strenght
- 6.1.4 tear strength
- 6.2 closure system
- 6.3.2 emergency release device
- 10 Instructions for use
