

## rescue-tec Organizer for Pocket Cards DIN A6, with individual text

**Order number:** HO-01470I

The small organizer for the leg pocket

The handy organizer is specially designed for carrying pocket cards and a notepad. Firm enough to be able to write lying in the hand and at the same time flexible enough not to interfere in the leg pocket - kneeling and squatting are possible without any interference with the organizer.

On the left inside there are two pockets for pocket cards. In addition, there is a business card or business card compartment there. On the right side a writing block DIN A6 can be inserted. In the middle there is a loop for holding a pencil or ballpoint pen.

The organizer is closed with an elastic cord. In the folded state, the cord can be pulled over the hand as a protection against falling down.  
(without contents)

This organizer comes with its own labeling requesting landscape format. The front offers space (13 x 5 cm) for your name or the name of the district or both.
