

rescue-tec F.B. Multi Purpose Bag Eggenstein, acc. to DIN 14922, for shoulder strap fixation

Order number: HO-06060

To carry and protect a fire escape hood (incl. packaging).

With the flame-resistant strap with metal carabiners (HO-06220) the bag is carried over the shoulder. The integrated emergency release appliance, which releases at a force of 250-300 N, minimises the risk of getting stuck. (shoulder strap not included)

- flame resistant material, tested in a 6-burner test at 950 (\pm 50 °C) like respiratory protection full-face masks class 3
- emergency release appliance
- the mobility of the wearer is not inadmissible restricted
- the physical burden on the wearer is not increased disproportionately
- the protective function of other PPE is not endangered

Material: rtx® 950

dimensions: 21 x 16.5 x 11,5 cm

weight: 0.17 kg

certified according to DIN 14922:2020-02

Conformity to DIN 14922 only achieved in connection with the flame-resistant carrying strap (HO-06220).

This bag could be printed individual. More you will find [there](#).
