

rescue-tec F.B. Multi Purpose Bag, acc. to DIN 14922, with individual text

Order number: HO-06060I

To carry and protect a fire escape hood (incl. packaging).

With the flame-resistant strap with metal carabiners (HO-06220) the bag is carried over the shoulder. The integrated emergency release appliance, which releases at a force of 250-300 N, minimises the risk of getting stuck. (shoulder strap not included)

- flame resistant material, tested in a 6-burner test at 950 (\pm 50 °C) like respiratory protection full-face masks class 3
- emergency release appliance
- the mobility of the wearer is not inadmissible restricted
- the physical burden on the wearer is not increased disproportionately
- the protective function of other PPE is not endangered

This bag comes with its own labeling request. The front offers space (11 x 6 cm) for the vehicle name or the name of the district or both.

material: rtx® 950

dimensions: 20.5 x 15.5 x 10 cm

weight: 0.17 kg

certified according to DIN 14922:2020-02

Please ensure sufficient contrast between bag's basic colour and text!

This is an individual product. It can not be exchanged.
