

## rescue-tec Fire Brigade Multi Purpose Bag Dortmund, acc. to DIN 14922, for shoulder strap fixation

**Order number:** HO-06068

To carry and protect one carrying sheet or two fire escape hoods (incl. packaging). (without contents)

With the flame-resistant strap with metal carabiners (HO-06220) the bag is carried over the shoulder. The integrated emergency release appliance, which releases at a force of 250-300 N, minimises the risk of getting stuck. (shoulder strap not included)

At the frontside a reflective sign (150 x 50 mm) for individual lettering can be fixed.

- flame resistant material, tested in a 6-burner test at 950 ( $\pm$  50 °C) like respiratory protection full-face masks class 3
- emergency release appliance
- the mobility of the wearer is not inadmissible restricted
- the physical burden on the wearer is not increased disproportionately
- the protective function of other PPE is not endangered

material: rtx® 950

dimensions: 27 x 26 x 9.5 cm

weight: 0.20 kg

certified according to DIN 14922:2020-02

Conformity to DIN 14922 only achieved in connection with the flame-resistant carrying strap (HO-06220).
