

EDELRID SHOCKSTOP-Y 140 TIE-BACK GIANT ANSI, Belt fall arrester, 140 kg payload

Order number: HR-03011

For even more flexibility and safety: The Y-connector from Edelrid with unique Tie Back function and up to 140 kg payload!

- ANSI certified
- tear back length of the halyard swivel: 160 cm
- integrated swivel carabiner for harness connection
- large aluminum carabiner with 64 mm opening width
- edge tested
- approved for 60-140 kg
- 15 kN minimum breaking load

EN 355 / ANSI Z359.13

With integrated intermediate rings, you can conveniently loop the upper part of the arms around wide or voluminous elements. To ensure your safety, the SHOCKSTOP-Y 140 TIE-BACK GIANT ANSI has been edge tested as a system as well as the carabiners individually.

The integrated swivel carabiner for harness attachment prevents twisting of the arms during use.
