

PETZL HUIT, Figure 8 Descender

Order number: HR-03100

For descending on a single or doubled rope.

- square shape to reduce twisting of the ropes and formation of a girth hitch
- high-strength forged aluminum
- small hole can be used with thin ropes if necessary, or as a belay plate

material: aluminium

max. working load: 100 kg

rope compatibility: 8-13 mm (single and half ropes)

weight: 100 g
