

Aliens Anchor D-Mobile, EN 795 B

Order number: HR-03210

The ALIENS door crossbar is a mobile attachment point according to EN 795 B for up to 2 people (taking into account the maximum opening width). It can be easily installed in window and door openings without additional tools. The contact surfaces are coated with plastic to protect the respective structure. The opening width can be easily set and fixed using a locking screw without tools. The ALIENS door crossbar is ideal for use on windows or balconies and prevents falls with a suitable lanyard.

- quick release by pressing the locking lever
- star handle for clamping the safety crossbar
- support surfaces covered with plastic
- securing two people to a safety crossmember in a wall opening up to max. 900 mm width
- securing one person to the safety crossmember in a wall opening up to max. 1100 mm wide

minimum breaking load: 22 kN

length: 1410 mm

weight: approx. 11 kg

CE, EN 795 B
