

PETZL Energy Absorber ABSORBICA-I 150, 150 cm, without fastener

Order number: HR-04060

ABSORBICA-I is a single lanyard with compact energy absorber designed for progression on a horizontal lifeline (rope or cable) or on an elevated platform, without passing intermediate anchors. It has several installation options on the harness and can be used with different types of connectors. The 150 cm version has an elasticized arm, to avoid hindering progression. Depending on the connectors used, ABSORBICA-I is certified to American, European and Russian standards.

Description

- Designed for progression on a horizontal lifeline (rope or cable) or on an elevated platform, without passing intermediate anchors
- Absorbs energy in the event of a fall:
 - tearing of the energy absorber webbing limits the impact force on the user
 - works with users who weigh between 50 and 130 kg
 - progressive tearing reduces the deceleration on lightweight users
- Minimal bulk:
 - compact energy absorber facilitates handling
 - FLEX version with 150 cm of elasticized webbing to avoid hindering progression
- Durable fabric pouch with opening system at each end, protects the energy absorber from abrasion or contaminants while allowing for regular inspection of the absorber
- Two options for installation on the harness, depending on use:
 - frequent connection/disconnection: with a carabiner held in correct position by the STRING positioning accessory (included with the lanyard)
 - semi-permanent connection: with a RING OPEN gated ring, whose circular shape ensures optimal positioning
- Two connector options for the end of the lanyard: a locking carabiner, or MGO OPEN connector with large gate opening

material: polyester, nylon

length without connectors: 150 cm

weight: 320 g

CE EN 355 when used with EN 362 connectors, ANSI Z359.13
12 feet when used with ANSI Z359.12 connectors, EAC
