

## PETZL ABSORBICA-Y MGO 80 Energy Absorber, 80 cm, with two fasteners MGO

**Order number:** HR-04105

ABSORBICA-Y MGO is a double lanyard with compact energy absorber, designed for progression on a vertical structure or a horizontal lifeline and when passing intermediate anchors. The 150 cm version has elasticized arms, to avoid hindering progression. With two MGO large-opening connectors, it is certified to European and Russian standards.

### Description

- Designed for progression on a vertical structure or horizontal lifeline, and when passing intermediate anchors
- Absorbs energy in the event of a fall:
  - tearing of the energy absorber webbing limits the impact force on the user
  - works with users who weigh between 50 and 130 kg
  - progressive tearing reduces the deceleration on lightweight users
- Minimal bulk:
  - compact energy absorber facilitates handling
  - FLEX version with 150 cm of elasticized webbing to avoid hindering progression
- Durable fabric pouch with opening system at each end, protects the energy absorber from abrasion or contaminants while allowing for regular inspection of the absorber
- Two options for installation on the harness, depending on use:
  - frequent connection/disconnection: using either a carabiner held in correct position by the STRING positioning accessory (included with the lanyard), or a MICRO SWIVEL to avoid tangling
  - semi-permanent connection: using either a RING OPEN gated ring whose circular shape ensures optimal positioning, or a SWIVEL OPEN to avoid tangling
- Comes with two large-opening MGO connectors for connection to metal structures

material: polyester, nylon, high-modulus polyethylene, aluminum

length without connectors: 80 cm

weight: 1.85 kg

CE EN 355 when used with EN 362, EAC connector
