

PETZL ROLLCLIP A Pulley Carabiner

Order number: HR-09230

The non-locking version is designed for use as a directional point on the ASCENSION handled rope clamp during short rope ascents.

- sheave mounted on sealed ball bearings for excellent efficiency
- gate opening on the pulley side facilitates installation of the rope when the pulley is fixed to the anchor
- may be used with a CAPTIV positioning bar to favor loading of the carabiner along the major axis and to limit the risk of it flipping
- Keylock system prevents any accidental snagging of the carabiner when putting the pulley in place
- ensures an improved strength-to-weight ratio
- protects markings from abrasion

Specifications

rope: 7-13 mm diameter

sheave diameter: 18 mm

maximum working load: $2 \times 2 \text{ kN} = 4 \text{ kN}$

efficiency: 85 %

opening: 22 mm

breaking strength lengthwise: 20 kN

breaking strength crosswise: 8 kN

breaking strength open gate: 7 kN

weight: 105 g
