

HMS Carabiner Screw Lock

Order number: HR-10105

HMS karabiners are widely used karabiners for the dynamic securing of other climbers. HMS stands for half hitch belay. HMS karabiners are locking karabiners that have a pear-shaped design. This design makes it easier to carry out the half hitch belay. It is made from top quality aluminium.

material aluminium

breaking strength: 25 kN lengthwise, 8 kN gate open, 9 kN crosswise

weight: 86 g

EN 362, EN 12275
