

PETZL OK SCREW-LOCK Carabiner

Order number: HR-10150

Oval-shaped carabiner for use with pulleys

Many pulleys need an oval-shaped carabiner to work properly. The OK carabiner is designed for just that. It is also very useful at belays.

- symmetric shape is ideal for use with belay devices, to maximize efficiency no matter which end is closest to the device.
- oval shape works great with pulleys
- keylock system
- TRIACT-LOCK: automatic locking with triple-action gate opening

material: aluminum

breaking strength: 24 kN longwise, 7 kN Gate open, 8 kN crosswise

weight: 77 g

CE EN 362, CE EN 12275 type B
