

rescue-tec Holster Wetter (Ruhr), shoulder strap fixation

Order number: ID-106

This shoulder strap holster was developed in cooperation with the fire department Wetter (Ruhr). The holster offers space for the rescue scissors Cologne in the main compartment. The front pockets for two luminous wedges and a marker pen are closed with individual lid flaps.

The holster is attached to the shoulder strap. An emergency release appliance, which releases at a force of 250-300 N, minimises the risk of getting stuck. (without content)
