

## rescue-tec Holster Bruchsal, Aramid / rtx® 950, for Scissor Cologne and Tubular Loop

**Order number:** ID-131

Version of the holster Heidelberg (HO-01100) developed for the fire brigade Bruchsal with an additional compartment for a tubular loop.

The attached pen compartment has been replaced by a larger compartment for a tubular loop (1.8 m). The compartment is equipped with a pull-out strap for easy removal of the loop. The lanyard to secure the scissors can be stored in a small, internal compartment. (without content)

Included: Lanyard

material: belt, cordura 1000D

dimensions: 23.5 x 7 x 7 cm
