

rescue-tec Holster Hagen, for Scissor Cologne

Order number: ID-150

Version of the holster Heidelberg (HO-01100) developed for the fire brigade Hagen for shoulder belt fixation.

It can be opened downwards with a single movement and the Cologne scissors are immediately ready to hand. The lanyard protects against loss if the scissors slip out of your hand when the visibility is zero. The compartment on the lid offers space for an identification pen.

The Cologne scissors are secured against slipping sideways by a concealed, sewn-in rail. The lanyard can be found in a pocket on the inside of the holster. (without content)

material: web belt

dimensions: 22 x 5 x 2.5 cm
