

rescue-tec bag Rodgau, for cutting and door opening set

Order number: ID-201

The transport and storage bag offers space for the Lukas cutting and door opening set HTS 99 / LCS 99.

The bag has a reinforced base and side walls. Plastic runners are screwed to the underside for additional stability. The bag can either be carried with two handles made of webbing or with a shoulder strap. On the lid there is a fleece 380 x 80 mm for a Velcro label.

For easy cleaning, the bag is made entirely of sturdy truck tarpaulin.

Material: nylon PVC-coated

Dimensions: 500 x 310 x 180 mm
