

rescue-tec Holster Fuldatal, for Rescue Scissor Cologne

Order number: ID-34

Version of the holster Heidelberg (HO-01100) developed for Federal Police Aviator Group Fuldatal for attachment to the thigh or lower leg.

The helicopter squadron of the Federal Police Aviator Group Fuldatal came to us with the request to attach Cologne rescue scissors to the thigh or lower leg so that they could quickly and easily free themselves from their belts in an emergency. Here the holster Heidelberg was ideal for attaching the shoulder strap. The fastening made of Velcro and elastic fleece has been lengthened accordingly. As with the original, the scissors are removed from the bottom in this version. The lanyard protects against loss.
