

rescue-tec Holster Seligenstadt, Attachment to the carabiner

Order number: ID-83

Version of the Holster Karlsruhe (HO-01010) developed with the fire brigade Seligenstadt.

The Holster offers space for belt loops with HMS carabiners, knives, marking pins and wooden wedges. The wooden wedges are protected against loss in the side pockets with a strap with Velcro. The door marking tapes carried along are fixed with a strap on the inside of the lid. The holster is attached to the lap strap with a carabiner.

material: Cordura 1000dtex

dimensions: 22 x 18.5 x 10.5 cm

weights: 0.16 kg
