

rescue-tec Holster Rheinfelden, for scissor Cologne, 3D timber wedge, tubular loop

Order number: ID-84

For the Rheinfelden fire brigade, a large belt holster similar to Holster Mechernich (HO-01040), with 3 inner compartments and 1 outer compartments, developed to accommodate extensive additional equipment.

The holster offers space for a rescue knife and an emergency scissor Cologne, two marking pins or marking crayon, several light rods, UNISEK pocket size key, biting gauge, hand wheel for wall hydrant, disposable gloves, tubular loop (2 m) and two wooden wedges.

Unlike Holster Mechernich, the two narrow, long wooden wedges find spaces into the lateral, wedge-shaped pockets. With a strap the wedges are secured against loss. The holster can be attached to couplings or hip belts of respiratory protection devices or the Molle system with the duplex back closure. (excluding content)

material: Cordura 1000 dtex

dimensions: 12.5 x 22 x 8 cm

weight: 0.16 kg
