

rescue-tec Holster Weilmünster, for scissor Cologne and 3D timber wedge

Order number: ID-87

Together with the fire brigade Weilmünster, this narrow shoulder strap holster was developed. It offers space for the application scissors Cologne and two 2D wooden wedges. The downward opening holster can be fixed either to the shoulder strap of the PA or to the lap strap. The scissors are secured against falling out with a elastic safety strap (not included).

The one-piece wedge compartment offers space for two 2D wedges. These are glued on the back with fluff and are secured by a detachable strap with Velcro on the wedge and the front of the wedge compartment. The strap ist used to remove the wedges at the same time. As an alternative to scissors, a belt loop (25 mm wide, 2 m long) can also be accommodated in the main compartment (excluding content)
