

Identification Waistcoat TACTICAL COMMAND, for modular equipping

Order number: KE-04360

The identification waistcoat TACTICAL COMMAND can be individual equipped thanks to its modular design and offers many possibilities for the fixation of equipment. So any kind of common Molle-bag for smartphone, radio, camera or torch can be fixed.

The waistcoat is equipped with reflective tape (yellow-silver-yellow) and thanks to its adjustability it can be put on easily over the jacket.

- short front, so jacket pockets under the waistcoat can be reached
- with zipper, no click-system
- modular design for individual equipping
- possibility to fix bags on the back section for not primary needed equipment
- four cable routings on the front and one on the back side
- four loops for fixing the hand microphone
- big brushed wool ribbons on both sides for breast labels 130 x 25 mm
- two brushed wool ribbon for two backlabels 380 x 80 mm or one label 380 x 160 mm
- strong belts for individual size adjustment
- washable up to 60 °C
- 3M Scotchlite reflective stripes

material: modacryl, flame retardant
