

## Kindswater Nozzle KW-235 with handle, Storz C-coupling, EN 15182, 80/130/180/235 l/min

**Order number:** LT-01013

Jet pipe with adjustable jet from full jet to spray jet to spray jet with man protection effect - pointer in spray jet position, clearly noticeable for better orientation when visibility is zero. The flow rates in four rate positions can be set from 80 to 235 l / min using a rotary ring.

- all adjustable jet shapes fixed by locking points
- pointer at 180 l / min position, clearly noticeable for better orientation with zero visibility
- rinsing position for rinsing out dirt particles even during use
- ergonomic pistol grip and smooth-running gear lever
- robust product (anodized aluminum, rubber)
- inlet rotatable under pressure

dimensions: 280 x 115 x 255 mm

inlet: 52-C

flow rate selection: 60/130/180/235 l / min

pressure: 6 bar

weight: 2.3 kg
