

AWG Turbo-Nozzle EVO 750 B, Storz B coupling, 360/550/750 l/min

Order number: LT-01031

The turbo sprayer EVO 750 is a hollow jet pipe according to DIN EN 15182 function category 3 with adjustable jet shape at selectable constant flow rate 360 / 550 / 750 l/min at 6 bar. The turbo sprayer EVO 750 is suitable for outdoor extinguishing. A generous flow rate enables the application of large quantities of extinguishing water to extensive sources of fire, even in the typical bolt position.

Dimensions: 405 x 126 x 250 mm

Inlet: 75-B

Flow rate: 360/550/750 l/min

Inlet pressure: 6 bar

Throw distance effective full jet: 35-41-45 m

Effective throwing distance of spray jet: 13-27 m

Spray angle: 0 - 120 °

Weight: 3,85 kg

DIN EN 15182
