

AWG TurboTwist Shot-off Unit C, base modul with Storz C-coupling

Order number: LT-01060

The multifunctional branchpipe with bayonet connection. Nozzles can be attached in just seconds. For all standard applications, such as hollow stream, full jet and foam nozzles. We also offer special application-specific attachments to give you maximum fire fighting flexibility while saving space on the truck. TT Shut-off Unit Base module with a rotatable coupling at the inlet and the new TurboTwist interface at the outlet for locking securely in the spring-loaded and self-locking bayonet connecting (in a combination of aluminum and stainless steel) on the interchangeable attachments. No unintended opening under pressure possible. Easy to fit and lock for a secure connection in just seconds. And just as easily disconnected by pressing together—for changing nozzles at turbo-speed.

dimensions: 200 x 109 x 246 mm

inlet: 52-C

weight: 1.7 kg
